Shorelight creates life-changing experiences for students worldwide. We partner with top U.S. universities to expand their reach far beyond the traditional campus and help talented international students thrive, graduate, and become successful, globally minded alumni.

We're reinventing the international education experience for both students and universities. In partnership with leading U.S. institutions, we build innovative degree programs that help students thrive—whether it's on campus or cloud-based, in the U.S. or in their home country.

We are passionate change-makers who think entrepreneurially and act collaboratively. We work closely with our recruitment partners and on-campus teams to recruit, prepare, and retain international students through our innovative Accelerator Programs.

Recruiting is only the first step. Our Accelerator Programs enhance academic readiness and language, social, and professional development skills while providing signature experiences that instill deep connections in the campus community.

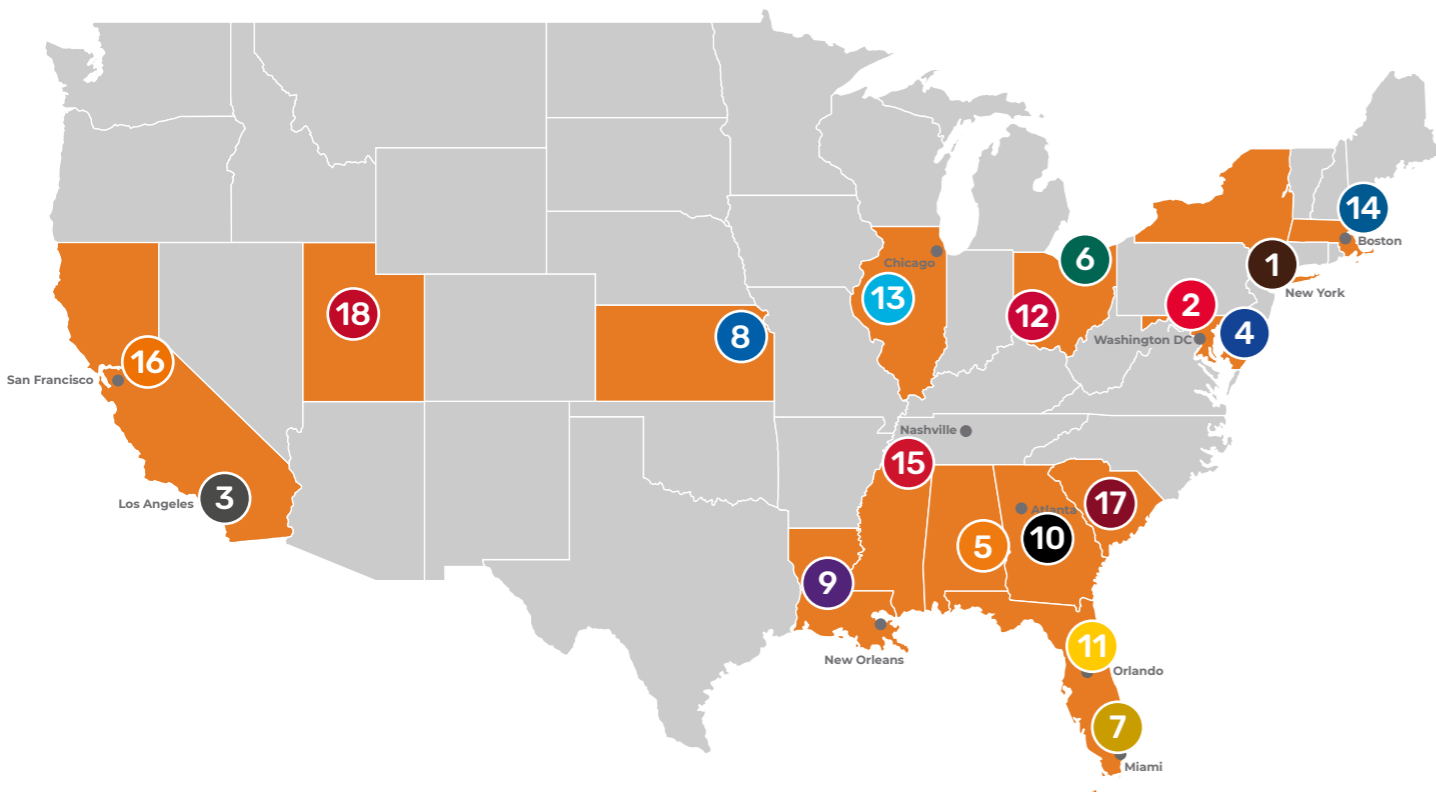

Students earn a full freshman year of credit, or credit towards their graduate degree, while receiving comprehensive academic and social support services.

We look forward to more growth in 2020 and are excited to have you on board for the new year. In 2020, we plan to increase options for students, offering both more universities and more programs to better meet international students' needs.

We will continue to value student success above all else and strive to create superior programs tailored to the international student experience.

# Where We Are.

We have assembled the best team with extensive experience in global and traditional U.S. higher education. Our innovative model is tailor-made for ambitious, prospering universities, and we are deeply proud of our partnerships.

# Shorelight Enrichment.

The **Career Accelerator** gives students the competitive edge to be successful in today's professional world.

Created by professional career coaches, the Career Accelerator offers students the ability to customize their program in line with their professional goals. Each student's dedicated Career Advisor works with them to provide the training and skills needed by today's global employers.

We appreciate that life as a student is busy. The Career Accelerator spans four semesters so that students can easily participate in the program while managing their studies. During this time, students participate in a series of interactive career-related workshops and events. Classroom and external activities are supported by

one-on-one appointments with an assigned Career Advisor to help students achieve their career goals. To complement this universal employability and academic development curriculum, additional activities will be arranged, such as employer panels, motivational speakers, topical seminars, group work, and tutorials. Career Accelerator students who complete the program are able to market themselves successfully to employers. Career Advisors leverage their expertise to help each student identify and obtain opportunities that will lead to their next great job.

## / PROGRAM MODULES AND SELECTED TRAININGS

Through Career Accelerator modules and workshops, students will explore a variety of personal and professional development themes that assess and develop their competence as productive, 21st-century workplace team members.

# Staying Connected.

Want to remain informed? The **Partner Portal** hosts the most up-to-date information on courses, downloads (guidebooks, flyers, and admissions documents), tuition, and dates and fees.

#### WHY THE PARTNER PORTAL?

- Information at your fingertips
- Counseling Summary feature, providing students with a hard copy of key conversation points
- Most recent dates and fees

#### FEE CHANGE: JUNE 1ST, 2020

Please note the new fee rollover and price increase begins June 1st. Be sure to check the Partner Portal for all up-to-date information. Please note that the Partner Portal will be updated before the Agent Handbook.

Visit [partners.shorelight.com](https://partners.shorelight.com) for more information.

# Routes of Entry.

With our partner universities, we have created a suite of programs that, at their heart, have a curriculum that is both challenging and engaging, driven by the goal of creating a world-class, meaningful student experience.

## INTERNATIONAL DIRECT

Many of our partnerships offer the international direct admissions process. This admissions process is a unique and streamlined approach for placing students into the optimal academic entry level to promote long-term educational success.

Once a student applies, they will be accepted to the university and the program that best meets their academic and English-language qualifications. This includes admittance via direct admission, pathway, and pre-session English programs.

Through the international direct admissions process, students and their counselors will benefit from a transparent application process, personalized assistance at every step, and pre-arrival support. This includes access to our online Admissions Portal, which provides you with the ability to easily view application status, missing documents, and all other requirements through all phases of the admissions process, up until a student's arrival on campus.

Students who apply through the international direct admissions process and have the academic qualifications and English-language proficiency required for direct entry will be able to enroll directly in the university and be fully immersed in their degree program as soon as they arrive on campus.

## ACCELERATOR PROGRAMS

Offered at both the undergraduate and postgraduate levels, the Accelerator Program that's right for your students will depend on their academic background, level of English-language proficiency, and personal preferences.

### The Undergraduate Accelerator Programs are comprised of three distinct tracks:

- Academic Accelerator Program (AAP) – 2 Semesters
- Extended Accelerator Program (EAP) – 3 Semesters
- Pre-Sessional English (with progression into the EAP upon successful completion)

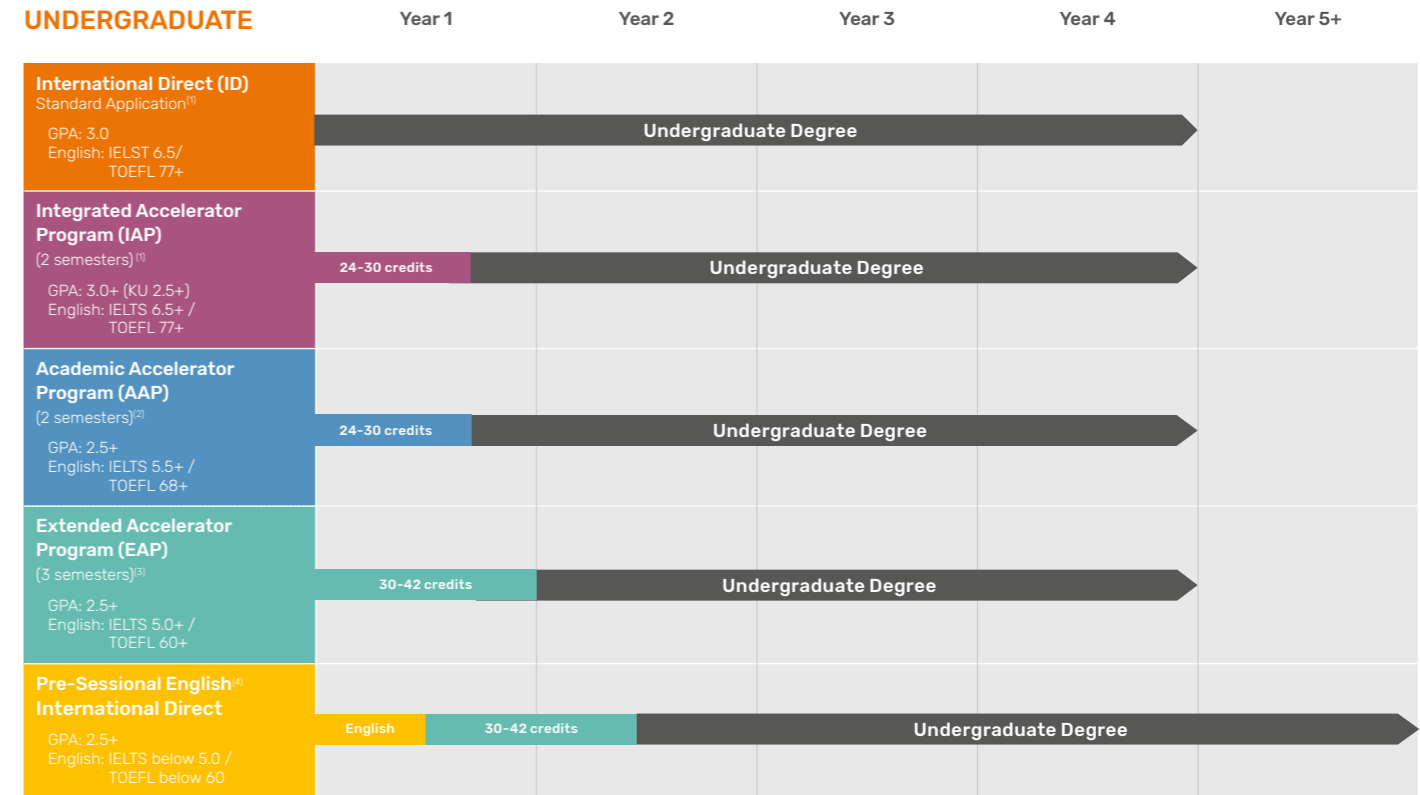

### The Master's Accelerator Programs are comprised of four distinct tracks:

- Direct Master's Accelerator Program (Direct MAP)
- Advanced Master's Accelerator Program (Advanced MAP) – 1 Semester
- Master's Accelerator Program (MAP) – 2 Semesters
- Pre-Sessional English (with progression into the MAP upon successful completion)

Regardless of entry route, the following facets of the program combine to create a learning-centered environment that promotes academic success, active involvement in campus life, and community engagement:

- Flexibility to change majors and explore interests
- Academic advising
- Dedicated student services team
- Small class sizes
- American cultural experiences

## UNDERGRADUATE

### Note:

This is the general minimum entry requirement for acceptance to one of the universities. For detailed entry requirements, please refer to the handbook or program guidebook.

(1) Students in the Integrated Accelerator Program receive wrap-around support services, proactive academic guidance, and access to the Career Accelerator program during their first year, at no additional cost. Standard application students will not receive access to these services.

### MINORI FROM JAPAN

“American University students are doing their own things—internships, part-time jobs, and other activities. More than just schoolwork. I’m far from home, but in college I feel like there is someone always there for me. DC has everything—shopping in Georgetown and Tyson’s Corner, the White House, the Smithsonian Museums. And it’s not hard to find Japanese or other countries’ foods.”

### WHY UNIVERSITY OF KANSAS?

- One of only 34 public universities in the Association of American Universities for leading research universities.
- *Forbes* recognizes Lawrence as 5# among "Best Small Places" for Business, with a prime business climate and affordable living.
- The "Rock Chalk" chant is used at KU sporting events and as a greeting when meeting other KU graduates. Former U.S. President Theodore Roosevelt called the "Rock Chalk" chant the best college chant he ever heard. The chant was used in the 1920 Summer Olympics when Albert I of Belgium asked for a typical American college yell.

"I wanted to get some experience of how people live in different countries. I think it's important to compare and contrast ideas. UIC is a good school where many great architects graduated. It's actually a great school with great professors. They are thinking about us and our future all the time. So they already provide information about internships, for example."

### / JONGILE FROM SOUTH AFRICA

“At most other campuses, you’re just a number, whereas here I don’t feel that way, especially in my department because, in a big way, your department becomes your university experience. It’s this whole small family thing, which helps you develop fast and easily integrate into the society, and with people being from different places, there’s so much to learn.”

"I chose UOP because of its high ranking and small classes, and because of the California weather! The campus is beautiful, and the professors really care about my success. UOP is like a family—lots of people from different places. It's fun, and people are so friendly and helpful. It's far from where I'm from, but it's my second home."

## / HRIDAY FROM INDIA

"I really like Columbia because it's between the ocean and the forest. Next to Columbia is Charleston, a really pretty and historical city with a great view of the ocean. Also nearby is the forest, where we have Congaree National Park, which is also pretty. People in Columbia are really nice and friendly. Here, you just walk down the street and strangers still say 'Hello' or 'How Are You' and that's comforting to me."

# How to Apply.

We have regional teams located across the world ready to assist you with your application and to give you advice throughout the admission process.

## STEP 1

### Student submits their application

Log into the Admissions Portal at [admissions.shorelight.com](https://admissions.shorelight.com) and complete the online application on the behalf of your student. Don't have a log-in? Reach out to your regional admissions representative.

## STEP 2

### Submit official transcripts

The student's original transcripts must be viewed by an authorized recruiter, public notary, or regional office and be certified. Once certified, these can be scanned and uploaded to the Admissions Portal as part of the application process.

## STEP 3

### Submit proof of English-language ability

If the student's native language is not English, please submit proof of their English-language ability. A full list of accepted tests can be found on the university partnership's website.

## STEP 4

### Provide Certification of Finances

After the student's conditional offer is received, the student needs to submit the documents requested in the offer. The student must also provide a Certificate of Finances and accompanying documentation from the student's bank showing sufficient funds for the program.

## STEP 5

### Apply for visa

Once the student has been officially admitted to a program, the relevant admissions team will send the documents required to apply for visa processing with the U.S. embassy in the student's country.

## PRE-ARRIVAL INFORMATION

Students must arrive on campus by the program start date.

## WHAT TO BRING

Students should pack these items in their carry-on luggage:

### Immigration Documents

- Passport
- Visa
- I-20
- Letter of acceptance
- SEVIS I-901 fee receipt

### Original Documents

- Academic transcripts—sealed in an envelope and certified
- Academic certificates
- English proficiency test scores for TOEFL, IELTS, or other
- Bank statement

### Residence Address

- Students should pack their housing confirmation letter so their address is easily accessible when they arrive.

### Health Forms

- Completed Health & Immunization Form

### Cash

- \$250-\$500 cash in low denominations or on a pre-paid bank card
